**EVA WOMEN'S HOSPITAL  
FAMILY GETS BIGGER AS WE ARE PROUD TO**

*Welcome*

**Dr. Pariseema Dave**

Gynaecological Oncosurgeon.  
Professor Emeritus & Former head of Department of  
Gynaecological oncology department,  
GCRI, Ahmedabad, Gujarat.

It is with great honour and pride that we welcome Dr. Pariseema Dave, M.D., to Eva Women's Hospital, Ahmedabad. A visionary leader in gynaecological oncology, Dr. Dave's illustrious career spans more than 35 years and has been defined by her pioneering work, dedication to patient care, and commitment to advancing the field. As former Head of the Gynaecological Oncology Department at the Gujarat Cancer Research Institute, Ahmedabad, and now Professor Emeritus, Dr. Dave has built a legacy that transcends borders. Her extensive contributions, including over 30 peer-reviewed publications in esteemed national and international journals, continue to shape the global understanding and treatment of complex gynecological cancers.

Dr. Dave's commitment to medical education is equally remarkable. She has served as a mentor and enduring influence to Dr. Dipak Limbachiya, founder of Eva Women's Hospital, inspiring excellence and compassion in those she guides. Her decision to join Eva Women's Hospital represents a profound milestone, bringing world-class expertise to our institution and reaffirming our commitment to offering premier, patient-centred care.

Dr. Dave's arrival enriches our hospital, our community, and our shared mission of transforming women's health. We are privileged to welcome a leader of her stature and look forward to the exceptional knowledge, vision, and humanity she brings to Eva Women's Hospital.

# CARPAL TUNNEL SYNDROME

Carpal tunnel syndrome (CTS) is a repetitive motion injury that occurs when the median nerve in the wrist is compressed.

## DIAGNOSIS:

- **CLINICAL:** Pain, tingling, burning, or weakness in the thumb, index, middle, and ring fingers. Clinical tests can almost confirm the diagnosis.
- **USG/ EMG/NCV** studies are confirmatory evidence.

## TREATMENT:

Rest, Ice, wrist splints, cortisone injections and surgery. Carpal tunnel release is gold standard.

If patient has bilateral affection, and opts for non-operative treatment, Orthotripsy (ESWT) can be tried on both sides at a time.

ESWT can regenerate the Median nerve and can regain lost function if done early.

**STATE PRESIDENT & HON. STATE SECRETARY'S MESSAGE**

Greetings from IMA Gujarat!

**Our strength lies in unity, and together, we can make a lasting impact on healthcare**

As doctors, we are not just healers but also leaders, guiding everyone towards better health and well-being. We urge you all to actively participate in these crucial initiatives, ensuring that we continue to grow stronger as a fraternity and serve society with excellence.

**Register Your Clinical Establishment – Time is Now!**

The Clinical Establishment Act [CEA] is a vital step towards standardizing medical practice, ensuring quality care, and safeguarding our rights as healthcare providers. Let's not wait—get your medical setups registered ASAP and be part of this important step. A well-organized healthcare system benefits both doctors and patients, and your participation is crucial.

**IMA & FOGSI Join Hands – HPV Vaccine Project**

In a landmark collaboration, IMA HQ has signed an MoU with FOGSI to promote the HPV vaccination project, aimed at preventing cervical cancer. We, as doctors, have the power to save countless lives by educating our patients and communities about the importance of this vaccine. Let's take this opportunity to protect the women of Gujarat and make cervical cancer a thing of the past!

## Aao Gaon Chalen – Serve with Passion!

Healthcare is not just about treating illnesses; it's about reaching those who need us the most. The Aao Gaon Chalen project is an opportunity for us to bring medical care to underserved areas and truly make a difference. Let's step out of our comfort zones, visit rural areas, and extend our expertise where it is needed most. Every consultation, and every bit of awareness we spread can change lives.

## Membership Drive – Avail 25% Discount!

IMA is our family, and now is the best time to invite young doctors to join us! IMA HQ has introduced a special limited time 25% discount on membership fees, making it easier for the next generation of doctors to become part of this prestigious organization. Let's encourage our juniors, colleagues, and friends to register and experience the benefits of being an IMA member. Stronger membership means a stronger voice for doctors across Gujarat!

## Join the NABH / NABL Quality Movement – Gunvatta Yatra

Quality in healthcare is non-negotiable. IMA Gujarat encourages all members to participate in the Quality Council of India's Gunvatta Yatra for NABH and NABL accreditation. This is our chance to elevate our hospitals and clinics to the highest standards. Accreditation not only improves patient trust but also enhances our professional standing. Contact our team to ensure excellence in your medical setups.

IMA Gujarat is not just an organization—it is our extended family. It is where we grow, learn, and support each other. Every initiative we undertake strengthens our profession and the bond we share. I urge each of you to take active participation, because together, we can achieve so much more!

Let's move forward with commitment, enthusiasm, and the shared vision of a healthier Gujarat.

**Dr. Mehul J. Shah**

President, G.S.B., I.M.A.

**Dr. Gargi M. Patel**

Hon. State Secy., G.S.B., I.M.A.

Subject: Prompt Registration of clinical unit under CEA,

Dear Dr.

Greetings from IMA Gujarat State Branch.

On behalf of the Indian Medical Association (IMA) Gujarat State, we extend our gratitude for your continued efforts in fostering excellence in the medical profession.

We are pleased to acknowledge and express our thanks appreciation to the **Government of Gujarat** for its steadfast commitment to ensuring quality healthcare for all by **rejecting the practice of mixopathy**. This decision safeguards the integrity of medicine and upholds the trust of patients in Quality care.

Additionally, we are deeply thankful to all forms of **media, both print and digital, for their critical role in spreading awareness** about this significant issue. Their dedication to informed and transparent reporting has empowered both healthcare professionals and the general public.

To further align with our collective mission of ensuring high standards in healthcare, we advise all doctors/hospital to **promptly register** under the Clinical Establishments Act. This step not only ensures compliance with the law but also reflects our commitment to maintaining accountability and professionalism in healthcare delivery.

We trust that your branch will actively communicate this guidance to all members and encourage their participation in upholding these principles.

Thank you for your cooperation and continued dedication to the betterment of healthcare in Gujarat.

If any query or suggestions, send to gsb office on email [imagsb@gmail.com](mailto:imagsb@gmail.com).

Yours Sincerely,

**Dr. Mehul J. Shah**  
President,  
IMA GSB.

**Dr. Gargi M. Patel**  
Hon. State Secretary

# Photography Exhibition

for Doctors of GSB IMA

We are excited to announce a Photography Exhibition for all doctors of GSB IMA! This is a wonderful opportunity to showcase your creativity and passion for photography across various subjects.

## EXHIBITION THEMES:

## GUIDELINES

- The Exhibition is open exclusively to members of the GSB IMA
- Each participant can submit 2 photos per category
- All entries must be original and unedited (cropping, colour and Brightness adjustments allowed)
- Photographs taken by DSLR / Mirror Lens camera is allowed
- Image should be of 3600 x 5400 Pixels (300 DPI)
- Include your name, city, contact details, the theme and caption of your image of your submission
- Free entry for photographs
- Once selected, it will be notified to you. It will be framed by us for which token of charges (₹500) to be paid by you
- Selected photographs will be framed and put in the exhibition

## PRIZES:

- Exciting prizes await the winners in each category, along with E-Certificates of appreciation to all.

## SUBMISSION DETAILS:

- Deadline for submissions: **15-03-2025**
- Please submit your entries via email to [photogsbima@gmail.com](mailto:photogsbima@gmail.com)  
Let your creativity shine! We look forward to your stunning entries.  
For more information, contact co ordinators

## PHOTOGRAPHY WORKSHOP

**Time: 10:30 am to 12:30 pm | Venue: Ahmedabad Medical Association**

No.	Topic	Speaker:
1	Basic photography skill	Arvindkumar Ramdas
2	Wildlife photography	Marvel Andrews
3	Landscape photography	Ravi Mistry
4	Street photography	Dr. Urvish Joshi

# Launching shortly, For our IMA Doctor Hospitals

**Hospital Protection Scheme, Coming soon...**

## IMA Gujarat is Launching the Hospital Protection Scheme (HPS) Soon! A Comprehensive Shield for Hospitals & Healthcare Institutions

In today's rapidly evolving healthcare environment, hospitals face growing medico-legal challenges, patient disputes, financial liabilities, and operational risks. The fear of legal action, financial penalties, and reputational damage has made hospital protection a necessity.

To address these concerns, the Indian Medical Association (IMA), Gujarat Chapter, is proud to introduce the Hospital Protection Scheme (HPS)—a first-of-its-kind initiative designed to provide legal, financial, and professional protection to hospitals and healthcare institutions across Gujarat.

### • **Why Do Hospitals Need Protection?**

The medical profession is becoming increasingly vulnerable to:

- ▶ **Medico-Legal Cases** – Patients and their families are more aware of their rights, leading to an increase in legal cases against hospitals.
- ▶ **Consumer Complaints & Litigation** – Hospitals are frequently subjected to consumer complaints, court cases, and financial compensation demands.
- ▶ **Financial Liabilities** – Unforeseen legal expenses and penalties can impact a hospital's financial stability.

The Hospital Protection Scheme (HPS) by IMA Gujarat aims to mitigate these risks and provide a strong legal and professional support system for hospitals.

- **Key Features of the Hospital Protection Scheme (HPS)**

- 1 Legal Protection & Advisory Support

- Access to expert medico-legal guidance from professionals.
- Assistance in handling court cases, medico-legal disputes, and consumer complaints.
- Support in drafting legal responses, affidavits, and documentation.

- 2 Financial Assistance & Coverage

- Financial support for legal defense in cases of litigation.
- Assistance in settling claims within legal frameworks.
- Cost-effective protection compared to individual legal battles.

- 3 Crisis Management & Risk Mitigation

- Immediate legal and strategic intervention in case of emergencies.
- Help in managing incidents related to patient complaints, legal notices, and government regulations.
- Guidance on preventive measures to minimize legal risks.

- 4 Exclusive IMA Gujarat Support

- Backing of a strong doctor-led association that understands hospital concerns.
- Representation of hospitals in medico-legal matters at the state level.
- Regular legal awareness programs and workshops for hospital management.

- **Who Can Enroll in HPS?**

- ▶ Private Hospitals – Single-specialty & multispecialty hospitals.
- ▶ Nursing Homes – Small & mid-sized healthcare facilities.
- ▶ Clinics & Daycare Centers – OPD-based or procedure-based healthcare units.
- ▶ Diagnostic Centers – Labs, imaging centers, and pathology units.
- ▶ Any Healthcare Institution in Gujarat seeking legal and professional protection.

- **Launching Soon – Stay Tuned!**

**IMA Gujarat's Hospital Protection Scheme (HPS) is set to launch soon! This pioneering initiative will help hospitals navigate legal complexities, manage risks, and continue providing quality healthcare without unnecessary legal stress.**

- **For more details, updates, and enrollment information, stay connected with IMA Gujarat**

## NABH: Elevating Healthcare Quality through Accreditation

**Prof. Dr. Atul M. Kochhar, CEO-NABH**

As the healthcare industry continues to evolve, the need for maintaining high standards of care becomes increasingly vital. In India, the National Accreditation Board for Hospitals and Healthcare Providers (NABH) plays a pivotal role in ensuring that healthcare organizations consistently provide high-quality services. NABH is a constituent board of the Quality Council of India (QCI), and its mission is to enhance the quality of healthcare in the country by establishing accreditation standards and promoting a culture of continuous improvement.

### Introduction to NABH

NABH was established in 2005 with the primary objective of setting up standards for the healthcare sector. Its main purpose is to ensure the safety, well-being, and satisfaction of patients by improving healthcare quality. NABH's accreditation standards are designed to bring healthcare organizations in line with global best practices and ensure they deliver healthcare services that are safe, effective, and patient-centric.

NABH works with a variety of healthcare organizations, including hospitals, clinics, diagnostic centres and other healthcare service providers. It provides a robust framework for organizations to assess and improve their operational practices and ensure that their services meet the required standards.

### Core Activities of NABH

Accredits and certifies Hospitals, Healthcare Providers, Blood Banks, & allied institutions, and, educates and trains for quality and patient safety in provision of healthcare

<div style="background-color: #ccc; padding: 2px; text-align: center; font-weight: bold; font-size: x-small;">ACCREDITATION</div> <ul style="list-style-type: none"> <li>• Hospitals, AYUSH Hospitals, Dental</li> <li>• Small healthcare organizations (SHEOs), clinics, centers</li> <li>• Medical Imaging Services</li> <li>• Eye Care Organizations</li> <li>• PHC</li> <li>• Blood Banks</li> <li>• Panchakama clinics</li> <li>• Clinical Trials Accreditation Program (Ethics Committee)</li> <li>• NABH-International</li> </ul>	<div style="background-color: #ccc; padding: 2px; text-align: center; font-weight: bold; font-size: x-small;">CERTIFICATION</div> <ul style="list-style-type: none"> <li>• Entry Level Standards (Hospitals, SHEOs, AYUSH-Hospitals &amp; Centers)</li> <li>• Medical Laboratory</li> <li>• Emergency Department</li> <li>• Nursing Excellence</li> </ul> <div style="background-color: #ccc; padding: 2px; text-align: center; font-weight: bold; font-size: x-small;">EMPANELMENT</div> <ul style="list-style-type: none"> <li>• CGHS Empanelment</li> <li>• ECHS Empanelment</li> <li>• MVT Empanelment</li> </ul>

and much more

## **Accreditation, Certification and Empanelment**

To understand NABH's contributions to the healthcare sector, it is essential to delve into its three key activities—accreditation, certification and empanelment.

### **Accreditation**

NABH accreditation is a comprehensive process that evaluates the quality and safety of healthcare organizations. It involves a rigorous assessment of the institution's governance, care processes, patient safety and patient outcomes. Accreditation is awarded to organizations that meet the defined standards, demonstrating their commitment to providing safe and high-quality care.

NABH offers accreditation programs for various types of healthcare institutions

- **Hospitals:** Aimed at ensuring hospitals adhere to international standards of healthcare delivery.
- **Healthcare facilities and Clinics:** Focuses on improving the standards of care at the grassroots level.
- **Specialty Healthcare Providers:** Designed for specific care providers such as dialysis units and more.

Accreditation is valid for a specific period, after which healthcare organizations undergo a reassessment to ensure continuous adherence to quality standards.

### **Certification**

NABH also offers certification programs for healthcare providers that may not be seeking full accreditation but wish to demonstrate a commitment to quality. The certification programs are designed to focus on specific aspects of healthcare service, such as infection control, patient safety and diagnostic services.

The NABH certification process is typically less comprehensive than accreditation, but it still requires healthcare organizations to meet rigorous standards. Certification can be a stepping stone for healthcare organizations that wish to eventually pursue full accreditation.

## **Empanelment**

Empanelment by NABH involves the recognition of healthcare organizations by various government and private insurance schemes. This process ensures that healthcare providers meet specific requirements set by insurance companies, government health schemes, or public health initiatives.

NABH empanelment ensures that healthcare organizations are part of an approved network where patients can access quality care that meets predefined criteria. This is particularly important in the context of public health programs and insurance reimbursements, where quality assurance is critical.

## **NABH's Achievements and Current Scope**

Today, NABH stands as a testament to India's commitment to improving healthcare quality. The board has made significant progress in expanding the scope of its work, ensuring that a growing number of healthcare organizations meet quality standards.

As of now, NABH has over 23,200+ healthcare organizations under its purview, which include hospitals, clinics, diagnostic centres and specialty care facilities. This impressive number highlights the growing demand for accreditation, certification, and empanelment among healthcare providers.

Out of the total number of healthcare organizations, more than 4,800+ are accredited healthcare organizations. This demonstrates that these institutions have passed the rigorous assessment process and are committed to maintaining high standards of healthcare delivery.

In addition, NABH has certified over 13,700+ healthcare organizations, recognizing them for meeting specific quality benchmarks. These organizations have demonstrated their dedication to improving certain aspects of their services, even if they are not yet ready to pursue full accreditation. Furthermore, NABH has 4,700+ healthcare organizations empanelled under various health insurance and government schemes. Empanelment has become increasingly

important as healthcare providers align with national health initiatives, ensuring that patients can access reimbursable services of recognized quality.

This expansive reach not only reflects the growing importance of quality assurance in healthcare but also underscores the role of NABH in driving improvements across the Indian healthcare system.

### **Other Activities of NABH**

Beyond accreditation, certification, and empanelment, NABH is involved in several other activities that contribute to the overall improvement of healthcare services.

- **Training and Capacity Building:** NABH offers training programs, workshops and seminars aimed at educating healthcare providers about quality management, patient safety and continuous improvement. These programs help healthcare staff stay up to date with the latest practices and standards in healthcare delivery.
- **Research and Development:** NABH supports research activities that focus on improving healthcare delivery and patient outcomes. This includes studying global best practices, developing new standards and conducting surveys and audits to identify areas for improvement in healthcare organizations.
- **Advocacy and Awareness:** NABH plays an active role in advocating for quality healthcare standards in India. It collaborates with healthcare institutions, government bodies and international organizations to raise awareness about the importance of accreditation and certification in the healthcare industry.
- **Public Health Initiatives:** NABH is also involved in promoting public health through initiatives such as ensuring that healthcare providers adhere to infection control practices, patient safety measures and best practices in clinical care.
- **NABH Quality Connect Grants:** This program is for healthcare quality professionals who are keen to establish new initiatives with innovative thinking and changemaking in the field of healthcare

quality and patient safety. Grants ranging from Rs. 25,000/- to Rs. 50,000/- are provided by NABH to 5 selected projects chosen for the grants.

- NABH Quality Connect fiesta: The NABH Quality Connect Fiesta Competition is an initiative designed to encourage healthcare professionals to showcase their innovative ideas and solutions in the realm of healthcare quality and patient safety. This competition provides a platform for individuals and teams to present their creative approaches to improving healthcare delivery, with an emphasis on practical, scalable solutions. Participants are challenged to develop reels, art, pitch and slogan with the aim of enhancing patient care and safety. Through this competition, NABH fosters a spirit of collaboration and knowledge sharing, empowering healthcare professionals to drive positive change in their organizations and across the healthcare sector. The competition also offers opportunities for recognition.

### **The Path Forward: Focus on Accreditation Programs in the Next Edition**

NABH continues to evolve, refining its standards and processes to ensure that healthcare organizations maintain high levels of quality and patient safety. With its increasing reach and growing number of accredited, certified, and empanelled organizations, NABH is making significant strides toward transforming the healthcare landscape in India.

In the next edition, we will focus specifically on NABH's Accreditation Programs, delving deeper into the criteria, processes and benefits of accreditation for healthcare organizations. This will offer valuable insights into the role of accreditation in elevating healthcare standards and fostering a culture of continuous improvement within the industry.

NABH remains committed to expanding its efforts to improve Quality and patient safety to the last in the line.

## NATIONAL FORENSIC SCIENCES UNIVERSITY GANDHINAGAR IN COLLABORATION WITH INDIAN MEDICAL ASSOCIATION - GUJARAT STATE BRANCH

### Memorandum of Understanding (MOU) NFSU & IMA-GSB

Indian Medical Association-Gujarat State Branch (IMA-GSB) signed MoU with National Forensic Science University on 25th October 2024 to strengthen the collaborative and mutual research activities NFSU and IMA-GSB, Ahmedabad has many areas of common interest and considerable advantage may be gained from their pursuit on a collaborative basis in the fields of academics, education, and research.

To stimulate and facilitate the development of collaborative and mutually beneficial academic activities which serve to enhance the intellectual life and cultural development for both the parties, NFSU and IMA- GSB, Ahmedabad has agreed as under in support of their mutual interests in the field of education and research.

## **About National Forensic Sciences University**

The National Forensic Sciences University, an Institution of National Importance, having its headquarter at Sector-9, Gandhinagar, Gujarat is established by an Act passed in the year 2020 by the Parliament of India, to facilitate and promote studies and research and to achieve excellence in the field of forensic science in conjunction with applied behavioural science studies, law, criminology and other allied areas and technology and other related fields, and to provide for matters connected therewith or incidental there to. The world's first and only University dedicated to forensic science and its allied subjects. NFSU primarily facilitate and promote academic learning and practices in the field of forensic science in conjunction with applied behavioural science studies, law, legal studies, criminology and other allied areas and technology, including training skill- development, research and extension of work with focus on emerging areas in the said fields for strengthening criminal justice institutions in the country. At present NFSU has a total of 9 campuses within the country and one campus outside the country at Uganda. NFSU offers a range of undergraduate, postgraduate, and doctoral programs in forensic science, forensic psychology, digital forensics, cyber security, law, criminology, and related fields.

University comprises various specialized Schools including School of Cyber security & Digital Forensics, School of Forensic science, School of medico-legal studies, School of behavioural sciences, School of pharmacy, School of Engineering & technology, School of police science & security studies, School of open learning, School of doctoral studies and research, School of law Forensic justice & policy studies and School of Management studies.

## **School of Medico Legal Studies (SMLS)**

SMLS was established to create professionals in the field of medico-legal sciences and other allied disciplines. The school is mandated to impart education, research, training and consultancy in the areas of

medico legal and medico-social and other allied areas. This school has come into existence for the effective teaching and learning with excellent advances in human bio sciences in all the areas pertaining to the investigation of crime against individuals. This requires highly sophisticated mechanism and techniques for resolving the issue. This is envisaged with a wide range of investigative courses as Toxicology, Forensic Dentistry (Odontology), Forensic Nursing and Forensic Anthropology.

### **Centre for Emergency Toxicology**

Centre for Emergency Toxicology (CET) is the fruit of the vision of Hon'ble Vice Chancellor, NFSU with the objective to carry out detection and analysis of drugs and poisons for clinical toxicology. This centre will also provide services to various stake holders including advice pertaining to poisoning treatment and research in the clinical toxicology field.

The centre's vision is to ensure safety and health of the citizens by delivering timely diagnosis of the toxicity involved and effective management of the toxicity. CET also aims to ensure the expert consultation and services to the patients and hospitals for holistic prognosis of toxicant exposure, treatment advice and safety measurement.

### **Infrastructure Facilities**

The centre is equipped with modern labs and having the advanced instrumentation facilities including routine and sophisticated analysis. The laboratory is well functional with instruments like UV-VIS Spectrophotometer, Randox Evidence Multistat, Fourier Transform Infrared Spectrometer (FTIR), Gas Chromatography (GC), Gas Chromatography-Mass Spectrometry (GC-MS), High Performance Liquid Chromatography (HPLC), Liquid Chromatography- Tandem Mass Spectrometry (LC-MS/MS), Inductively Coupled Plasma Mass Spectrometry (ICP-MS) & various other small instruments for chemical and toxicological analysis such as Compound microscope, Stereo Microscope and Fluorescence microscope.

**Centre for Emergency Toxicology is offering following test panels for poisoning cases:**

National Forensic Sciences University		
School of Medico Legal Studies - Centre For Emergency Toxicology		
Qualitative Test Panels		
Sr. No.	Poisons	Panel
1	Pesticides	Organophosphates, Carbamates, Paraquat
2	Heavy Metals	Lead, Mercury, Antimony
3	Inhalants	Carbon Monoxide(Carboxyhaemoglobin)
4	Scheduled Drugs	Acetaminophen, $\alpha$ -PVP (Alpha Pyrrolidinopentiophenone), Amphetamine, Barbiturates, Benzodiazepines, Buprenorphine, ETG (Ethyl glucuronide), Fentanyl, Methamphetamine, Methadone, Opiates, Pregabalin, Salicylates, Tramadol, TCA (Tricyclic Antidepressants), AB-CHMINACA [N-[(1S)-1- (1-amino-3-methyl- 1-oxobutan-2-yl)-1-(cyclohexylmethyl)- 1H-indazole-3-carboxamide], AB- PINACA [N-(1-amino-3-methyl-1-oxobutan-2- yl)-1-pentyl-1H-indazole-3-carboxamide]
5	Drugs Of Abuse	Cannabinoids, BZG(Benzoylecgonine)/Cocaine, Phencyclidine
Quantitative Test Panels		
Sr. No.	Poisons	Panel
1	Heavy Metals	Aluminium, Arsenic, Bismuth, Lead, Copper, Chromium, Cobalt, Selenium, Nickel, Manganese, Mercury, Barium, Beryllium, Caesium, Molybdenum, Tin, Silver, Strontium, Uranium, Vanadium, Zinc
2	Inhalants	Carbon Monoxide(Carboxyhaemoglobin)
3	Scheduled Drugs	Acetaminophen, $\alpha$ -PVP (Alpha Pyrrolidinopentiophenone), Amphetamine, Barbiturates, Benzodiazepines, Buprenorphine, Dextromethorphan, ETG (Ethyl glucuronide), Fentanyl, Haloperidol, Ketamine, Meprobamate, Methamphetamine, Methadone, Methaqualone, Opiates, Pregabalin, Propoxyphene, Salicylates, Tramadol, TCA (Tricyclic Antidepressants), Xylazine, Zolpidem, AB-CHMINACA [N-[(1S)-1- (1-amino-3-methyl-1-oxobutan-2-yl)- 1-(cyclohexylmethyl)- 1H-indazole-3-carboxamide], AB- PINACA [N-(1-amino-3-methyl-1-oxobutan-2-yl)-1-pentyl-1H-indazole-3-carboxamide]
4	Drugs Of Abuse	Cannabinoids, BZG(Benzoylecgonine)/Cocaine, Phencyclidine
5	Methemoglobinemia Causing Agents	Sodium Nitrite, Dyes

## HEALTH SCHEME IMA-GSB

### Important Information

**Dual Benefit : Member and spouse both can get benefit in one membership.**

- Member / Spouse will get benefit only after completion of one year of joining the scheme.
- Members will get the benefit from Health Scheme as well as their own Mediclaim.

### Disease Group Covered Under The Scheme

- (1) **Coronary Heart Disease Group:-** Angioplasty, Bypass surgery & valvular heart diseases surgery & Permanent pace-maker implant.

## NEWS CLIP

### હોસ્પિટલ અને લેબોરેટરીને ગુણવત્તા સભર બનાવવા સંદર્ભે સેમિનાર યોજાશે

। ભાવનગર ।

આઈ.એમ.એ. ભાવનગર દ્વારા ક્વોલિટી કાઉન્સીલ ઓફ ઈન્ડિયાના ગુણવત્તા યાત્રા અંતર્ગત હોસ્પિટલો અને લેબોરેટરીઓને ગુણવત્તા સભર બનાવવાના ઉદ્દેશ્યથી તા.૧૬ રવિવારે સવારે ૯ થી ૨ કલાક દરમિયાન ડોક્ટર હોલ, ડાયમંડ ચોક, ભાવનગર ખાતે એક વિશેષ સેમિનારનું આયોજન કરવામાં આવ્યું છે.

આ સેમિનારમાં ક્વોલિટી કાઉન્સીલ ઓફ ઈન્ડિયાના પ્રખ્યાત વિશેષજ્ઞો જગત પટેલ, ડો.ચૌધરી નવીન અને ચન્દ્રકાંત સોલંકી ઉપસ્થિત રહી NABH

અને NABL એક્રિડિટેશનના ધોરણો, જરૂરીતાઓ અને લાભો અંગે વિગતવાર માર્ગદર્શન આપશે. NABH અને NABL એક્રિડિટેશન ધરાવતી હોસ્પિટલો અને લેબોરેટરીઓ જનતાને પારદર્શકતા સાથે ગુણવત્તાયુક્ત સારવાર આપવા માટે પ્રતિબદ્ધ રહે છે. આ એક્રિડિટેશનથી હેલ્થકેર સર્વિસમાં વિશ્વસનીયતા અને લોકોનો વિશ્વાસ વધે છે. ગુજરાત આઈ.એમ.એ. વેસ્ટ ઝોનના હોસ્પિટલો અને લેબોરેટરીઓ સાથે સંકળાયેલા તબીબોને આ સેમિનારમાં ઉપસ્થિત રહેવા આઈ.એમ.એ. ભાવનગરના સેક્રેટરીઓનો સંપર્ક કરવા અનુરોધ કરવામાં આવે છે.

## HOW I DO - Surgical clearance with low platelet or high PT - PART - 8

(All the articles published in past are available at [www.shyamhemonclinic.com/blog/](http://www.shyamhemonclinic.com/blog/))

**Question:** In last part, we covered some important points related to surgical clearance for patients on antiplatelets or anticoagulation. 1. All antiplatelet agents are not same. Aspirin related risk is much lower compared to newer antiplatelets. For urgent surgery, platelet can be transfused. Otherwise wait for 2-7 days. Bone marrow biopsy, pleural/ascitic tapping does not require any wait time. No tests can predict bleeding reliably, hence not indicated for any decision making. 2. Be careful while evaluating medication list. Many new medicines in these categories with so many brand names. Patient may not recognize them as Blood Thinner. 3. Anticoagulation is a much higher bleeding risk, even for small procedures like bone marrow biopsy, pleural/ascitic tapping etc. Different drugs need different wait time before surgery. E.g. warfarin about 5 days, but most NOAC about 24 hours. Tests for prediction of bleeding are well known for warfarin or acitrom i.e. PT. but for NOAC, anti factor Xa, which is not widely available except in major cities and that too few labs. 4. For emergency procedures, different preparations are required for 3 different classes of drugs i.e. warfarin/acitrom; NOAC; heparin/LMWH. Need to be carefully planned. Vitamin K alone is not sufficient. Not even FFP given once. There are specific antidotes for some of the medicines. You provided excellent clarity in last part about this very common practice scenario, and with ever growing list of medicines.

But what if any tests are abnormal, such as low platelet? Or high PT, aPTT?

**Answer:** Thank you. Before we start, one important point that many people ask about.

Antiplatelet agents do NOT reduce platelet number, only reduce their function. Means if patient is on antiplatelet agent and platelet counts are low, they must be investigated for the etiology of low platelet.

If platelet count is low, you need to look at following main considerations:

1. How is the other **pillar** of Hemostasis i.e. PT, aPTT. If this is normal, risk is lower. If this is also abnormal, risk is substantially higher.
2. How **severe**?
3. How **invasive** is the procedure, or surgery required?

Severity of thrombocytopenia:

**MILD** is 100,000 to 150,000. At this level, practically all surgeries can be allowed, provided PT, aPTT are normal. We give formal clearance for even CABG, Neurosurgery at this level.

**MODERATE** is about 30,000 to 100,000. This is a wide range. For bone marrow biopsy, pleural or ascitic tapping, lumbar puncture, CVP line, this is ok. Also about 50,000 platelet is sufficient for hernia surgery or appendix removal.

**SEVERE** is below 30,000. At this point, bone marrow biopsy is ok, but for other procedures, individualized decision making is required. And surgery definitely requires a specialist input. This is important since every patient with low platelet will not respond to platelet transfusion.

Etiology of low platelet also matters somewhat i.e. in case of ITP, platelets are generally much more functional and hence bleeding risk is lower. But for same platelet count, myelodysplastic syndrome patient is more likely to bleed.

Expertise of the person doing procedure also matters e.g. lumbar puncture at 30,000 is ok with an expert who gets it in one prick almost always. For others, over 50,000 should be the goal. At some institutions in USA, who routinely treat pediatric acute leukemia, they do lumbar puncture at 10,000 too!! Similarly, for a CVP line insertion, 10,000 to 30,000 is ok with expert, but otherwise goal should be over 50,000.

**Que:** That is very interesting and helpful. What about for those who have high PT and/or aPTT?

**Ans:** This is more complex, since the bleeding risk is significantly higher. And depends largely on the underlying reason too. For example, if tests are abnormal due to chronic liver disease/cirrhosis, ascitic tapping or bone marrow biopsy, CVP line insertion can be done with very low risk. But risk is significantly higher with most other etiologies e.g. DIC, anticoagulation drugs.

They need expert involvement for planning of blood products and other aspects before and after surgery. **Vitamin K** is frequently given for any high PT in routine practice. However, it works only for vitamin K deficiency, not for other etiology. Pure vitamin K deficiency is uncommon. Such as patients with prolonged hospitalization requiring broad spectrum antibiotics. These patients require **only 2-5 mg** vitamin k to completely correct PT in about 12 hours. Higher doses do not lead to more correction. Higher doses up to 30 mg are generally given to provide longer term storage of vitamin k, not for better correction. Means, if you have given first dose of 10 mg, and next day your PT is still high, you need to look for other reasons. **Further vitamin k is not going to solve** your problems. Most common other etiology for high PT is chronic liver disease/cirrhosis. Then medicines, DIC etc. High aPTT alone is a whole different topic, and requires separate evaluation and management.
