STATE PRESIDENT'S MESSAGE

Dear IMA GSB Friends,
Seasons' Greetings. Wishing you Happy Mahavir Jayanti, Hanuman Jayanti & Akha-Trijin advance.
Our small and medium scale hospitals and doctors are facing much troubles in registration/renewal under Hospital/Clinical Establishments Act, Fire Safety, Biomedical Waste Management Act, C-Form etc. We are in constant liaison with the State Government & concerned Authorities, to find a comfortable &

compromised way out. We are quite sure that soon we shall be able to find a middle way in this.

Lessons from COVID 19

We seem to have gone past the worst crisis of our life time, as COVID 19 looks to have peaked out for now. We also realised that this is not the last disaster that we have faced. Our health care system was overwhelmed with massive number of sick patients and our doctors, nurses and other support staff responded bravely, often at the cost of their own safety and lives. This dedication and sense of duty set a great example of how doctors selflessly serve the society. Our Prime Minister and the Government also recognised the role played by our dedicated doctors, who saved so many lives in this worst pandemic of the century.

This pandemic has offered a plenty of lessons for all of us - individual medical practitioners, doctors practising in public and private hospitals and also those, managing our public, private and corporate hospitals. Some of them are as follows:

Be ready with plans for sudden increase in demand for health care services: We encounter small and large, either man made or natural disasters regularly and it is very critical that we have plans in place as to how should we deal with such exceptional situations. We should also review such plans periodically and undertake mock drills on regular basis. That will strengthen our capabilities to respond to such disasters and make our health systems more resilient.

Use of Technology: One important lesson that comes out prominently, from our COVID 19 response, is the use of technology during the epidemic. Use of telemedicine was very extensive during those days and despite some limitations, tele-consult has become one of the most acceptable way to offer advice and consultation for medical practitioners. Technology was also used widely for other uses during pandemic and we all stand to benefit from that. There are a number of such success stories where health care services and systems used technology, internet based services, e commerce platforms and even the delivery of critical medical supplies and vaccines through drones. Our COWIN platform used for

vaccination has become a very successful technology and this platform was offered to so many other countries by India.

Ensure robust supply chain: We realised that there was shortage of critical devices like lifesaving drugs and devices from time to time. Even oxygen also came at premium. Some medicines just disappeared from the market. Similar situation was seen in supplies of masks, other disposable items and medical devices. To address such massive unexpectedly high demands of medical supplies, we should diversify our supply chain and sources, from where we procure our medical goods. This particular problem was just not only local but this agenda has also caught global attention. Now so many countries want to reduce their dependence on outside suppliers. India is also taking multiple steps in this direction by encouraging indigenous manufacturing of bio pharmaceuticals and medical devices.

Strengthen our Surveillance and data collection systems: This will help us anticipate such disasters much earlier before the situation escalates. With early notification our response will be robust and timely. This will help us to develop a stronger medical response, implement preventive measures and even hasten our vaccine development effort, in time to contain the damaging consequences of such an epidemic.

Emotional Support to health care staff: We lost a lot of our colleagues in this pandemic. Stress levels ran very high amongst doctors, paramedical professionals and even their families. Some of our colleagues had to work days and days continuously, without any break. Conversely, some of colleagues and specialists were not able to practice for months and suffered massive loss of income. All these situations require a lot of emotional and psychological support to our colleagues who suffer from such problems. Mental health is often a neglected area, even amongst the doctors!

The best way to pay tribute to our doctor colleagues, we lost to COVID-19, would be by learning from the experience and implement those lessons that could help our patients and save their lives. I believe that the some of the lessons we have learned from the pandemic, would also improve the hospital care and health care delivery in both - our daily practice and would also help us to better prepare ourselves for future such pandemics.

હે પ્રભુ, મારું આ સદ્ભાગ્ય અને અહોભાગ્ય છે કે, લોકોની પીડા દૂર કરવાની તેમની સેવા કરતાં કરતાં મારા સ્વાર્થ અને અર્થને સાધવાની અતિ ઉત્તમ તક તે મને આપી છે. આમ કરતાં મારા પર તે બહુ મોટી જવાબદારી પણ મૂકી છે. એનું ગંભીરતા અને નિષ્ઠાપૂર્વક વહન કરી શકું એવી શક્તિ પણ મને આપજે.

IMA, Jay Jay Garvi Gujarat, Jay Hind.

Yours sincerely,

Dr. Mahavirsinh M. Jadeja
President, G.S.B., I.M.A.

HON. STATE SECRETARY'S MESSAGE

Dear Members,

**“To keep the body in good health is a duty,
for otherwise,
we shall not be able to trim the lamp of wisdom,
and keep our mind strong and clear”**

These are tough times. From Covid-19 to H1N1 to H3N2, all viruses are rearing their head and bringing with them a spate of illness in the diaspora which has expansive implications and a dread and fear of the unknown is creeping into every second person on the street.

It goes without saying that in these circumstances the doctor is the global faith healer, kindred soul and the supreme saviour. The goal of “Health for All” means that it becomes imperative for any person, irrespective of caste, creed or community to have access to quality healthcare. It also means recognizing that access to healthcare, education, and resources can significantly impact the well-being of individuals and communities. By working together to address the social, economic, and environmental factors that contribute to poor health outcomes, we can create a healthier and more equitable world for all.

“Life is not merely being alive, but being well.”

IMA has planned to propagate this day as Samarpan Divas. Various activities that will help to increase public awareness about the importance of good health practices and propitiate the importance of preventive medicine include awareness

programmes on social media, public campaigns and community events.

Let us all join us hands in this endeavour to enrich the lives of our brethren through integrative activities to ensure a disease free and healthy society. This will surely go a long way to contain the spread of infection and decrease the prevalence of active infection amongst all human beings.

This is the time to recapitulate and rejuvenate. A long road awaits ahead and if we are healthy and our minds are at peace, then only can we spread the sermon of preventive and integrative medicine amongst the society.

The IMA is all set to organise the CWC meet of the IMA under its aegis in Gujarat in the coming days. It is a coming of age event for our association and we hope to produce a gem of an event which will be spoken of highly in the days to come.

All in all the IMA team members are totally involved to make all programs suggested by IMA headquarters successful.

**“Health is the greatest gift,
contentment the greatest wealth,
faithfulness the best relationship.”**

Dr. Mehul J. Shah
Hon. State Secy., G.S.B., I.M.A.

IMA/HSG/206/1815

20/02/2023

To,
Shri Narendra Modi ji
Honourable Prime Minister of India
Government of India

Respected and beloved Prime Minister,

Pranaam

We bring you the respect and esteem of the modern medicine doctors of India. We wish to bring to your attention some important issues of the medical profession for your consideration.

1. There has been a policy shift to introduce integrative medicine. IMA wishes to submit that every system of medicine is unique in its own way and has a distinct identity and profile. Modern medicine has made huge strides in India and has to be accepted as a legacy than a colonial vestige. The life span of an Indian has increased from 27 in 1947 to 70 in 2023. Modern maternal and child health services, eradication of small pox, polio, neonatal tetanus as well as control of Tuberculosis and other infectious diseases have contributed to this phenomenal Health achievement. We could stop Covid on its tracks because of the vaccine and modern medicine doctors manned our Pandemic services. It is estimated around 2000 modern medicine doctors laid down their lives in our war against Covid. Indian medical colleges are amongst the oldest in the world and are rightfully our legacy. Indian doctors are our best ambassadors and add a legion to our soft power. Today India is the proud capital of modern medicine effectively blending clinical medicine with evidence based medicine. The effort to integrate irreconcilable systems will lead onto loss of our leadership in modern medicine. Chinese Traditional Medicine got decimated in such a process. The purity and existence of Ayurveda is under threat by opting for Integrative Medicine. We wish to say that we are the leaders in affordable and accessible healthcare and China is not our role model. IMA appeals to you to preserve the purity of all systems to retain the choice of our people. IMA is apprehensive that Integrative Medicine will set us back by a century and cause irreparable damage leading onto loss of countless lives.
2. Violence on doctors and hospitals has become commonplace and can no longer be ignored. Fear rules our hospitals. Young doctors manning our emergencies and ICUs as well as the Obstetricians are in the front lines of such attacks though no one is safe. Physical abuse, trial by media and cyber trolling are order of the day. 25 states have law on attack on doctors and hospitals. They are mostly ineffective on ground and do not serve the purpose of deterrence. The absence of a special central enactment is one of the reasons. It is pointed out that the airline staff have been given a special status and protection under a special law while the doctors and nurses have been left alone to fend

Website: www.ima-india.org ; Email: hsg@ima-india.org

National President Dr. Sharad Kr. Agarwal +91-9717111942 np@ima-india.org	Immediate Past National President Dr. Sahajanand Pd. Singh +91-9334118698 sahajsurgery.phulwarisharif@gmail.com	Honorary Secretary General Dr. Anilkumar J. Nayak +91-9825051333 dranjlnayak@yahoo.co.in	Honorary Finance Secretary Dr. Shitij Bali +91-9910755660 shitij.bali@yahoo.com
--------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------

for themselves. Your Government partially mitigated the situation during the pandemic by amending the ancient Epidemic diseases Act 1897. Hospitals are recognised as safe zones even in war. It is unacceptable that they are targeted in peace. Violence on doctors and hospitals is a complex issue and would require a sophisticated and effective response. The Central law against violence on doctors and hospitals could only be a beginning.

3. The advent of a new regulator in medical education has led to amateurish experimenting affecting the medical students of the nation. One of these avoidable sluggers fast is the confusion compounded by introduction of a licentiate exam NeXT 2 at the end of compulsory internship and deeming it the entrance exam for postgraduate studies as well. It is illogical to evaluate the least common denominator of being licensed and to identify the best students for post-graduation by a single examination. This will be an injustice to students who wish to join Government service or begin general practice after graduation. The least that could be done is to decouple postgraduate selection. This is not to exonerate the idea of NeXT 1 which is a violation of the Universities Act. The idea of licensing is alien and our medical education has done us proud as evidenced by an omnipresent and competent medical diaspora.
4. The institution of National Board of Examinations has done well to produce highly competent specialists and super special specialists from non-teaching institutions. It will be in prudence of things to retain and nurture this institution rather than merge the same with NMC which is saddled with many responsibilities all at once.
5. Time has come to review all the legislations governing the medical practice including medical negligence. Criminal prosecution in the absence of mens rea, alterations of the doctor patient relationship to one of consumer and provider, the collateral damage suffered by the profession by the biased structure of the PCPNDT Act and the POCSO Act are few of the many which need to be reviewed in a way aligning the profession with the national interest without alienating.

In a true sense doctor are in a state of fear and harassment from all directions. They deserve solace and succour especially after the crucial Covid war. They certainly need a new deal. We in IMA have high hopes that your administration will hear the voice of the medical profession. Redressal of the grievances of the doctors and medical students of India is awaiting your favourable consideration.

Thanking you

With kind regards

Dr. Sharad Kumar Agarwal

21st February 2023
New Delhi

To

All the Presidents and Secretaries of IMA State Branches
and

All the Presidents and Secretaries of IMA Local Branches

Dear Doctor,

Greetings from Indian Medical Association (HQs.)

I hope IMA activities thus far have been brisk in your branches. This communication is regarding the World Health Day on 07.04.2023. This year our World Health Organization will be observing its 75th anniversary as well. In 1948, countries of the world came together and founded WHO to promote Health. WHO's 75th anniversary year is an opportunity to look back at public health successes that have improved quality of life during the last seven decades. It is also an opportunity to motivate action to tackle the health challenges of today.

This year's World health day highlights the special theme of the role of nurses and midwives. IMA wishes to commemorate the world Health Day in a befitting manner. IMA hereby declares the World Health Day as **समर्पण दिवस / Dedication Day** by the medical profession. IMA calls upon all the members of the fraternity to rededicate themselves for the Health of our people. This dedication also acknowledges the sacrifice of about 2000 of our colleagues in the covid war as well.

IMA wishes to showcase the medical profession's special bonding and relationship with the members of the nursing profession. Nurses and midwives have stood with the medical fraternity through peace and war to serve the humanity. Reconnecting with the nurses and midwives and acknowledging their role in healthcare will be one way by which IMA wishes to express its appreciations and gratitude.

समर्पण दिवस / Dedication Day will be commemorated throughout India by IMA HQs, State Branches and Local Branches as well as individual members of IMA. The members of IMA shall take an oath of dedication to the Health of the nation. While we reiterate our rights, we shall also rededicate ourselves to the duty of the nation. The following programmes are suggestive yet not exhaustive.

INDIAN MEDICAL ASSOCIATION (HQs.)

(Registered under the Societies Act XXI of 1860)
Mutually Affiliated with the British & Nepal Medical Associations
I.M.A. House, Indraprastha Marg, New Delhi-110 002
Telephones: +91-11-2337 0009 (10 lines), 23378680 / +91-9999116375, 9999116376, Fax: +91-11-23379470
Website: www.ima-india.org ; Email: hsg@ima-india.org

National President

Dr. Sharad Kr. Agarwal

draniljnyak@yahoo.co.in

Honorary Finance Secretary

Dr. Shitij Bali
+91-9910755660
shitij.bali@yahoo.com

For State Branches

1. Conduct press conference atleast one week before the World Health Day. Model Press release will be sent to you by IMA HQs.
2. Organize Health marches in a befitting manner both at the State capital and The District capitals. A past State President or a senior leader may be deputed in each district.
3. The march should consist of IMA members, nurses from Government and Private sector paramedical and motivated citizens. The march may begin from the District Hospitals / Medical Colleges and end in the district collector's office.
4. Public meetings/open forums of small group of our members in interaction with members of the public can be conducted.
5. Articles and news material may be circulated to the newspapers. Suitable messages may be released in the social media.

For Local Branches

1. All local branches shall cooperate with District level activity.
2. All local Branches are directed to conduct a general body meeting to commemorate the World Health Day.
3. The day must be observed as **समर्पण दिवस / Dedication Day**.
4. IMA HQs will send an oath to be taken by all its members across the country.
5. Members of the public, local leaders and social opinion makers may be invited to the meeting.
6. The local leaders of the nursing profession and midwives may be recognized on and behalf of the nurses and midwives of the area especially for their contribution during the pandemic.

An electronic report of the commemoration may be sent to HSG on real time basis. We desire that the World Health Day observation by IMA should awaken all the members of IMA to the action ahead.

Thanking you,
Yours sincerely,

Dr. Sharad Kumar Agarwal
National President, IMA

07/03/2023

“World Kidney Day” – 9th March 2023

The Slogan of this year’s World Kidney Day is ‘KIDNEY HEALTH FOR ALL -. *Preparing for the unexpected and supporting the vulnerable!*

The last three years have been very tumultuous for the world. It started with COVID-19 pandemic, the Ukraine war followed by earthquake, floods and extreme weather. This has resulted in redistribution of resources and less being spent for non-communicable diseases like chronic kidney disease. The low- and middle-income countries have been particularly hit hard where the bulk of the patients reside. Therefore, preparation for unexpected events is incredibly important for kidney patients.

Chronic kidney disease is the sixth fastest-growing cause of death globally and around 1.7 million people are estimated to die annually because of acute kidney injury globally. In India, it is estimated that a population of over 7.8 million people are living with chronic kidney diseases.”

In view of the increasing incidence of kidney disease and the need for raising awareness World Kidney Day was started in 2006. Genetically people from South Asian geographical regions i.e. India, Pakistan, Bangladesh and Sri Lanka have higher risk of kidney disease especially with increasing rates of Diabetes and Hypertension.

Diabetes is the number one reason for kidney failure in India. Kidney failure is a silent disease and it does not manifest until 60% to 70% function is lost.

1 in 10 people worldwide suffers from some degree of Chronic Kidney disease and it can occur at any age plus various risk factors can accelerate it.

Twenty million people have Chronic Kidney Disease globally and of these 7.8 million are from India. In Chronic Kidney Disease there is a gradual deterioration of kidney function, the end result of which is kidney failure.

7 Most Important tips of health kidneys are:

1. Keep fit and avoid sedentary lifestyle
2. Check and manage your blood sugar levels
3. Have a healthy balanced diet
4. Check and maintain the ideal blood pressure levels
5. Drink appropriate fluids (8 cups or nearly 2 litres per day)
6. Abstinence from Alcohol and tobacco consumption
7. Avoid regular intake of non-steroidal anti-inflammatory (pain killer medication) and other kidney damaging drugs.

Get your kidney functions checked periodically if you have any or more risk factors like:

1. Have diabetes
2. Have hypertension
3. Are obese
4. Have family history of Kidney disease

The key to discover early kidney disease is doing routine checks like urine tests, getting blood pressure and sugar checked periodically. Early detection can help postpone kidney failure through low cost medication.

Common early and late symptoms of kidney disease include:

1. Tiredness and exhaustion
2. Nausea and vomiting
3. Confusion, anxiety and restless.
4. Passing little or no urine
5. Swelling in the body especially of legs and feet
6. Loss of appetite with weight loss
7. Itching
8. Breathlessness

Kidney replacement can take place through transplantation. A patient can also have either blood or water dialysis called Haemodialysis, or peritoneal Dialysis to filter the wastes of the body. However, kidney transplantation remains the best method to replace a lost kidney. It provides the best quality of life and also is cost effective compared to dialysis.

What can be done to Help patients with Kidney Failure ?

IMA recommends and promotes organ donation on the world kidney day as organ donation is life saving and safe for the donor and has excellent benefits to the recipient. Organ donation can be done by any healthy person especially Kidney and liver with no long-term side effects to the donor.

A brain dead patient can donate (Cadaver transplant) apart from Kidneys and liver other organs also like heart, lungs, liver and pancreas. One brain dead patient can save 8 lives. The problem in India is the scarcity of organs for transplants. Number of patients needing kidney transplant in India is estimated to be 2,20,000 annually and we are currently doing only 7,500 kidney transplants against the same. 90% of these are from living donors and 10% are from the brain dead (Cadaver) donors.

IMA appeals for healthy care of your kidneys and also promotes the concept of organs donations. It supports initiative of Government Bodies such as NOTTO to improve the donation rate in our country.

DONATE LIFE BY DONATING ORGANS.

10.03.2023

To
All the Presidents and Secretaries of IMA State Branches
and
All the Presidents and Secretaries of IMA Local Branches

Dear Sir,

Greetings from Indian Medical Association HQs.!

As per the recommendations of the IMA Standing Committee for Action, it has been decided to observe IMA World Health Day (7th April, 2023) as a "Samarpan Divas" in a grand way in all over the Country.

It was decided to do the following activities in all State and Local Branches:

1. A Seminar has to be organised in every State and Local Branches to sensitize members on the issues of profession and possible solutions, with priority to integrative medicine. The first part of the event should discuss about 'Health for All' and second part about 'Integrative Medicine'. Apart from Modern Medicine speakers, some experts in Ayurveda/Homeopathy who oppose mixing of systems can also be invited to speak.
2. A "Walkathon" has to be organised to show the solidarity of medical profession preferably in the morning with Placards / Banners on different issues like: Health for All, Care for All, Good Health for All, Anemia Free India, Health of Nursing Staff, Health of Healthcare Workers etc.
3. A Press Conference should be called on 5th or 6th April, 2023 prior to the event and a Press Release of the event on 7th April, 2023 should be sent to all media personnels.

Honorary Finance Secretary

Dr. Shitij Bali
+91-9910755660
shitij.bali@yahoo.com

4. An Award Ceremony should be organised to felicitate the nursing and healthcare workers at Branch and State levels. MPs, MLAs, and local Administrative Authorities should be invited as a Guest in the Ceremony.

We also propose "Let Health Shine" campaign on World Health Day. Our National President will launch the campaign along with Union Health Minister by lighting Diya at New Delhi.

All States and Local Branches, members and citizens should light a lamp or candle at 7pm on 7th April at their Residence/Hospitals and Clinics to show their support for "Good Health for All". This will also win support to our campaign- 'Best of Each System for All Citizens'.

Local Branches can also have this kind of Diya Lightening at either IMA Bhavan / any prominent place at the City where members can be assembled.

It is a preliminary email for preparation to observe the World Health Day, other details will be sent to you soon.

Thanking you

With kind regards

Dr. Sharad Kumar Agarwal

Ref No. A-11/HFC/LM/2023-2024

Date: 1-3-2023

Subject:- Regarding GST on Membership Fee.

Dear Branch Secretary,

Greetings from IMA, Gujarat State Branch.

We have received email from IMA HQs. on **14-2-2023** regarding **GST on Membership Fees**. We would like to inform you that the below are the important information, kindly go through the same and implement at the earliest:-

1. GST on membership fee to be taken by Local Branches

For Single Life Member - 12280 + 2210 (GST 18%) = Rs. 14490-00

For Couple Life Member - 18151 + 3267 (GST 18%) = Rs. 21418-00

2. If the Local Branch does not have GST number, then sent the following amount to IMA GSB.

For Single Life Member – 11450 + 2210 = Total Rs. 13660-00

For Couple Member – 16881 + 3267 = Total Rs. 20148-00

3. If the Local Branch has GST number, then sent the challan copy of GST paid and following amount to IMA GSB.

For Single Life Member - Rs. 11450-00

For Couple Life Member - Rs. 16881-00

Please send Membership Fees by a Cheque / DD. drawn in favour of
“G.S.B. I.M.A.”.

Yours Sincerely

Dr. Mehul J. Shah
 Hon. State Secretary
