**STATE PRESIDENT  
AND  
HON. STATE SECRETARY'S  
MESSAGE**

Dear Members,

As you all know, this is last message before our term ends in the month of October. We know that whatever begins, ends. The same way our tenure will.

During this whole year, we visited different branches, HQ, Government offices, print & electronic media, members hospitals & so many other places. We had different experiences & we learnt a lot from those exposures.

So at the outset we humbly thank all our members and specialty those seniors who put their faith in us to bestow the responsibility on us. We have worked hard through the whole year but still might not have fulfilled all expectations. We humbly bag your pardon for the same at this time. That might be our limitations. But never intention.

Many branches have done so many activities during this year & we have witnessed few of them. Specially the ongoing community activities by so many branches have

really inspired & motivated us. We are really proud of heading such a noble body.

During this time many branches are having their change functions, we mean Installation of new Team. One more very important & proud moment for all of us during this period will be Installation of our own, respected & legendary Leader DR KETAN DESAI as PRESIDENT OF WORLD MEDICAL ASSOCIATION. That's a real proud moment for all of us.

We also congratulate & assure our whole hearted support to incoming President of GSB IMA Dr Yogendra Modi & his entire team during his tenure.

At the end our best wishes are always with our members and Association. We will be happy for the service of our own Association anytime.

Thank you one & all.

Jay Hind, Jay IMA.

## MOLECULE OF THE MONTH

### Ceftaroline

Ceftaroline fosamil, the prodrug of the active metabolite, ceftaroline, is a new, broad-spectrum cephalosporin recently approved for the treatment of acute bacterial skin and skin structure infections (ABSSSIs) and community-acquired bacterial pneumonia (CABP). Literature has described it as a fifth generation cephalosporin. Ceftaroline parenteral cephalosporin with broad-spectrum antibacterial activity in vitro against Gram-positive bacteria, including methicillin-resistant *Staphylococcus aureus* (MRSA) and multidrug resistant *Streptococcus pneumoniae* and Gram-negative bacteria, including *Haemophilus influenzae* and *Moraxella catarrhalis*, but not *Pseudomonas aeruginosa*. Ceftaroline has demonstrated a low potential for the selection of resistance in vitro for drug-resistant Gram-positive organisms, including MRSA, as well as for Gram-negative respiratory pathogens.

#### Chemical structure:

#### Spectrum of action:

Ceftaroline is active against pathogens such as *S. pneumoniae*, *S. aureus*, *Haemophilus influenzae* and *Moraxella catarrhalis*. It demonstrates coverage across a broad range of pathogens typically encountered in clinical practice. Ceftaroline is also very active against common pathogens seen in

ABSSSIs such as *S. aureus* (methicillin-susceptible *S. aureus* and methicillin-resistant *S. aureus*) and *Streptococcus pyogenes*.

#### Mechanism of action:

Mechanism of action of Ceftaroline fosamil is little different from penicillin. Beta-lactam antibiotics inhibit bacterial peptidoglycan synthesis by binding the penicillin-binding proteins (PBPs) in the bacterial cell wall. Inhibition of PBPs leads to irregularities in cell wall structures, such as elongation, lesions, loss of selective permeability, and eventual cell death and lysis. In particular, ceftaroline can effectively bind to and inhibit PBP-2a, the type of PBP produced by methicillin-resistant *S. aureus* (MRSA) and not well inhibited by other antibiotics currently in clinical use.

#### Pharmacokinetics:

Ceftaroline exhibits dose-proportional pharmacokinetics following intravenous (iv) administration similar to other renally excreted cephalosporins. Elderly patients greater than or equal to 65 years of age are more likely to have decreased renal function. So care should be taken in dose selection in this age group as in younger patients with impaired renal function.

Dosage adjustment is required in patients with moderately (30 to 50 ml/min) or severely (<30 ml/min) impaired renal function.

#### Adverse effects:

Side effects of ceftaroline are diarrhea, nausea, vomiting, constipation, headache, rash, pruritus, increased transaminases, anemia, eosinophilia, neutropenia, thrombocytopenia, bradycardia, palpitations, abdominal pain, fever, hepatitis, hyperglycemia, hyperkalemia, dizziness, convulsion, renal failure and urticaria.

#### Pregnancy and lactation:

Ceftaroline fosamil has been classified as pregnancy category B, and has not been studied in paediatric populations.

**Contraindications and Cautions:**

Known serious hypersensitivity to ceftaroline or other members of the cephalosporin class.

Anaphylaxis and anaphylactoid reactions have been reported with ceftaroline.

**Drug interactions:**

No clinical drug-drug interaction studies have been conducted with ceftaroline fosamil. In vitro studies in human liver microsomes indicated that neither ceftaroline fosamil nor ceftaroline inhibits the major cytochrome P450 isoenzymes. Therefore, neither ceftaroline fosamil nor ceftaroline are expected to inhibit or induce the clearance of drugs that are metabolized by these metabolic pathways in a clinically relevant manner.

**Therapeutic indications:**

1. Community-acquired bacterial pneumonia (CABP)
2. Acute bacterial skin and skin structure infections (ABSSSIs).

**Dosage schedule:**

Ceftaroline fosamil is dosed at 600 mg iv every 12 h over 1 h in adults  $\geq 18$  years of age. Dosage adjustment is necessary in patients with moderate to severe renal impairment. In patients with moderate renal impairment (CLCR  $>30$ – $50$  mL/min), the dosage should be reduced to 400 mg iv (over 1 h) every 12 h. Patients suffering from severe renal impairment (CLCR  $15$ – $30$  mL/min) should have the dose reduced to 300 mg iv (over 1 h) every 12 h. For patients with end-stage renal disease, including those on haemodialysis, the dose should be further reduced to 200 mg iv (over 1 h) every 12 h.

## IMA News

The issue of amendments in PC & PNDT Act also has been the demand of IMA. On IMA's effort, an inter Ministerial Committee is looking into these amendments. IMA is also fighting these issues in Central Supervisory Board.

IMA is happy to note that IRIA is also taking up these issues in the form of an agitation starting today.

IMA fully support IRIA on the following demands:-

1. Clerical errors in Form F/not wearing of apron/non display of notice board/not keeping hand book on PC & PNDT Act should not be equated with Sex Determination and Criminal offence.
2. Punishment should be graded (in line with the offence).
3. There should standardize implementation of PC & PNDT Act throughout the country.
4. Ultrasound machines should not be sealed and medical registration of Radiologists should not be cancelled/suspended on minor clerical errors.
5. The Gazette Notification dated 5th June, 2012 regarding restriction to Radiologists for visiting more than two Ultrasound Centers in a district/intimation of change of Radiologist and Equipment one month in advance should be de-notified or suitably amended.
6. Renewal of PC & PNDT Registration should not be denied until and unless case is proved in the court of law.
7. Court cases against doctors using Ultrasound Machine for minor clerical errors in Form F/not wearing of apron/non display of notice board/not keeping hand book on PC & PNDT Act should be reviewed/withdrawn.

In addition IMA is also fighting for

- 1) Non Pelvic Ultrasonologists, with an undertaking that they are not doing any ante natal work, be kept out of PC & PNDT Act.
- 2) Non Radiologists ultrasound Machine Users in future to have six months training in IMA/IRIA approved or of reputed training institute.
- 3) Those who are already registered under PC & PNDT Act to get re-registration without retraining.

## **"Media Requested not to Prefix Dr in Front of a Quack while Reporting or Creating Headlines"**

Indian Medical association has request the media reports and w riters not to prefix "Dr" in front of people w'ho do not possess valid recognised medical degree. It defame the medical profession and brings a bad image of the modern doctor on front of public eyes, said Dr SS Aganwal President and Dr KK Aggarwal Honorary sec re tar)' general IMA.

"A quack is not a doctor and no reporter or righter should prefix Dr in front of a quacks name. It hurts and defames the medical professions" said Dr Aggarwxd.

Recently a quack Santosh Pol has been named by the media "Dr Death" who admitted to have killed at least six people, including four women between 2003 and 2016 at Wai, a sleepy Maharashtrian town.

He is not a doctor and is not qualified to prescribe allopathic medicines. He has a degree in electropath homeopathy (BEHS) and according to the Maharashtra Medical Council, doctors w ho hold degrees in alternate medicines cannot practice allopathy medicine and technically they are known as quacks.

### **IMA Released a Few of the Government Documents as to Who Can Write the Word Dr in Front of his or her Name**

1. MCI Ethics Committee: "Doctor" may be used by the registered medical practitioners in the modern medicine, Ayurveda, Homeopathy and Unani. No other group of workers in the field of medical profession whether nursing or para medical staff should use the title "Doctor". The said recommendation of the Ethics C ommittee were adopted by the Executive Committee of the Council at its meeting held on 19.04.2003 wherein the Executive Committee further recommended that the same should be placed before the General Body of the Council lor a policy decision thereon. The General Body of the Council at its meeting held on 20.10.2003 decided that a legal opinion should be sought on the matter. Accordingly, the legal opinion was furnishedby the Learned Counsel of the Council on 03.02.2004, wTerein amongst other things it was brought out that the official stand of the Medical Council of India is correctly depicted by the decision taken by the Ethics Committee and approved by the General Body of the Council.
2. This was based on the basis of the provisions of Indian Medical Degrees Act of 1916 which clearly shows that the basic purpose of the said enactment was to

ensure that certain persons are not permitted to pose to the public as possessing qualifications in medicine and surgery which they do not possess. The main focus is with reference to Section 6A of the Act wherein it has been clearly laid down that it is not permissible for any person to add to his name any title, description, letter or abbreviation which imply that he holds degree, diploma, licence or certificate as his qualification to practice any system of medicine unless and until he actually holds such degrees, diploma or certificate. [No.MCT5(3)/2008' Med./MEDICAL COUNCIL OF INDIA EXECUTIVE COMMITTEE 25th August, 2008.

3. Government of India Ministry of Health & Family Welfare (Research Desk), Nirman bhavan, New Delhi Dated , the 25th November, 2003: ...."Government constituted a 'Standing Committee of Experts' under the Chairmanship of Director General, Indian Council of Medical Research and members were drawn from various fields of medicine to consider & give its recommendations to the Government on the efficacy / merits of various streams of alternative medicine and also examine feasibility of making legislation as suggested by the Hon'ble Court. The Committee developed essential & desirable criteria for grant of recognition to a new stream of medicine and analyzed the different streams of 'Alternative medicine viz, Ayurveda, Siddha Unani, Homeopathy, Yoga & Neuropathy, Electropathy / Electro Homeopathy, Acupuncture, magneto therapy, Reiki, Reflexology, Urine Therapy/ Autourine Therapy, Hypnotherapy, Aroma therapy, colour Therapy, Prank Healing, Gems & Stone Therapy and Music Therapy. The Committee did not recommend recognition of any of these alternative medicines except the already recognised traditional systems ol medicines, viz, Ayurveda, Siddha. Unani, Homeopathy and Yoga & Naturopathy which were found to fulfill the essential desirable criteria developed by the Committee for recognition of a system of medicine. The Committee has, however, recommended that certain practices as Acupuncture and Hypnotherapy which qualified as modes of therapy could be allowed to be practiced by registered practitioners or appropriately mined personnel. The Committee further suggested that all those systems of Medicine not recognized as separate Systems should not be allowed to continue full time Bachelor and Master's degree courses and the term "Doctor" should be used only by practitioners of Systems of medicine recognized by the Government of India. Those considered as mode of therapy can be conducted as certificate courses for registered medical practitioners whether modern medicine of

Indian Systems of Medicine and Homeopathy. After carefully examining the various recommendations of the Committee, the Government accepted these recommendations of the Committee. Accordingly, it is requested that the State/UT Govt, may give wide publicity to the decision of the Govt. They may also ensure that institutions under the State/UT do not grant any degree/diploma in the stream of medicine which have not been recommended for recognition and the term 'Doctors' is used by practitioners of recognized systems of medicine.

### IMA Safe Sound Points

1. Noise has a lot of ill effects on our health and it is the leading cause for permanent deafness.
2. Noise is a silent killer and affects all systems especially central nervous, cardiovascular, endocrine and immune systems.
3. Decibel (dB) is the unit of sound intensity. Zero dB is the minimum hearing capacity of a healthy person in Noise free environment. Every 10 dB is 10 times more powerful.
4. Exposure to sounds above 80 dB for even shorter periods have serious effects on our health.
5. Traffic sounds are a major source of noise in Indian cities (90 to 120 dB).
6. Use of loudspeakers in public places after 10 pm and before 6 am is illegal.
7. DJs and cinemas have a noise level of 110 to 120 dB and limit your exposure to less than 2 hours in a week. Please note that even this much period is harmful to young children and pregnant ladies.
8. Staying away for intervals of 5 to 10 minutes from very noisy situations reduces the ill effects of noise to a great extent.
9. Use of ear plugs or muffler is highly recommended in very noisy situations, it will reduce the sound exposure by 15 to 20 dB.
10. Participate actively in the IMA Safe Sound Initiative for a better, healthy in India.

### The chronology of events of strike at SMIMER and role of IMA, SURAT

1. Doctors and technicians were assaulted early hours of 6th September
2. IMA learnt about it at 8.30 am. Team IMA reached the premises at 9 am, met the authorities and conveyed their concern and oblige protest. Team IMA assured JDA (Junior Doctors Association) about their whole hearted support.

## Two radiologists get jail for PCPNDT Act breach

Two radiologists were sentenced to one-year imprisonment for lapses in maintaining record under various provisions of the Pre-Conception and Pre-Natal Diagnostic Techniques (Regulation and Prevention of Misuse) Act, 1994, amended in 2002, just five days after the fraternity's nationwide strike demanding decriminalization of minor mistakes in paper work was withdrawn.

First class judicial magistrate Gajanan Nandanwar awarded the jail term to radiologists Viren Kulkarni and Rajesh Kankal under various provisions of the act. Nandanwar also told Kulkarni and Kankal to pay fines of Rs16,000 and Rs18,000 each, failing which they would have to undergo imprisonment of 10 more days.

After the sentence, Kulkarni said, "I sought the bail soon after the conviction. The court has allowed me to go in appeal in the higher court. Barring sonography test, I can render other radiological services. The conviction is only for minor paper work-related mistakes and not for sex determination. The court also observed this."

The convicted radiologists have been practising in Pune for more than 15 years. A criminal case was registered against Kulkarni and Kankale, running Ankur Diagnostic Centre on Kharadi Bypass, in October 2011. Health officials of the Pune Municipal Corporation (PMC) had found several lapses at the facility during routine inspection.

"This is the third conviction under the PCPNDT Act in Pune city since 2011. For the first time, two radiologists were found guilty and sentenced to one-year imprisonment," said Vaishali Jadhav, the appropriate authority (AA) entrusted to ensure effective enforcement of the act in Pune city.

"It only proves that finding evidence and following all procedures laid down under the PCPNDT Act are extremely important for an appropriate authority to bring the erring person to justice," she added.

The lapses in record-keeping included not maintaining the mandatory Form F in the prescribed format, missing signature of radiologists on Form F and declaration form, indication of sonography test not mentioned on the Form F and non-maintenance of register at the centre - mandatory to record details of pregnant women.

"During our inspection carried out at the Ankur Diagnostic Centre on October 18, 2011, we found that the mandatory Form F was not maintained in the prescribed format, signatures of radiologists were not put on the Form F and also on declaration form, patients' and referral doctors' detailed addresses were not mentioned," said Jadhav, who spearheaded the inspection and filed criminal cases against the doctors.

When Kulkarni pleaded before the court that he be acquitted as he had not performed female foeticide and was the sole breadwinner of his family, the court said he had been found guilty and that he could argue only about the quantum of punishment.

"Both the accused did not even bother about appending their respective signatures on vital documents like Form F and sonography report. These show the perfunctory attitude of the accused towards the act," the judgment order states.

Section 4 (3) of the PCPNDT Act says if anybody is found maintaining incomplete records then it shall be presumed that the person has violated sections 5 and 6 of the act. The violation would attract punishment under section 23 of the act, amounting to rigorous imprisonment up to three years and fine up to Rs10,000.

The court ordered the doctors to surrender the sonography machine and asked civic officials to organize an auction calling registered sonography centres to bid. The money thus collected shall be deposited in the government treasury.

## GUJARAT MEDICAL JOURNAL

(Report : by Dr. K. R. Sanghavi; Hon. Editor,  
Dr. Harshad C. Patel; Hon. Jt. Editor; Dr. B. I. Patel; Hon. Secretary)

We hope, you have found the articles in our Gujarat Medical Journal (GMJ) issues very useful and interesting. We have taken utmost care to maintain our established standards and norms. It was our Endeavour to make GMJ the front runner medical journal in the country. For decades, our members do research work in Gujarat and they furnish data and information in the form of research papers. Like that GMJ provides them an important platform. Now our GMJ has become an Indexed Journal and so an original article, case report or letter to the editor published in GMJ accordingly provides earning of credit hours to the author. However, because of some technical reasons we could publish only one issue of GMJ till this date but we are hopeful to publish second issue in November or December 2016.

We thank all those esteemed learned colleagues for their contribution and work. To us, they are not only doing research work but they are serving the society also. Our learned and experienced referees and reviewers are very strict and vigilant in selection of articles. We are thankful to them all for helping us in maintaining our laid down standards.

While selecting the articles, we were conscious to see that the articles cater the need and interest of practitioners of all the specialties.

We thank President GSB IMA Dr. Atulbhai Pandya and state Hon. secretary Dr. Jitendra N. Patel for their useful guidance and special interest in publication of GMJ issues. We are also thankful to our past presidents Dr. Kirtibhai Patel and Dr. Mahendrabhai Desai for their help and guidance.

With regards,

**Dr. K. R. Sanghavi**  
(Hon. Editor)

**Dr. B. I. Patel**
